On August 5th at 10:00 the Barre Family Services Office will be walking in remembrance of Lara Sobel.

This will be a time for us as a community of providers to come together and remember the many contributions Lara made to the children and families of our community throughout her 14+ years working as a child protection social worker with DCF-Family Services.

We encourage everyone to wear purple and to bring a flower – we will be walking in reflective silence so that we can each remember Lara, her contributions, and the values she held dear:
• seek out the good no matter how overwhelming and negative the circumstances
• never allow the misfortune of individuals or their level of despair to become routine or acceptable
• strengthen the cause of child welfare, social justice, and health and wellness of child welfare staff

Please join us. We will be gathering in front of the Washington County Court House and will then walk to Currier Park where a bench is going to be installed and dedicated to the resilience of our community.
